Lancer Fabtech Private Limited

www.lasercuttingindia.net

An ISO: 9001:2008 and TQS certified company. We are able to manufacture and supply any kind of **Sheet Metal Components** as per the customer requirements. Also we provide Fabrication & Cutting Services to our customers.

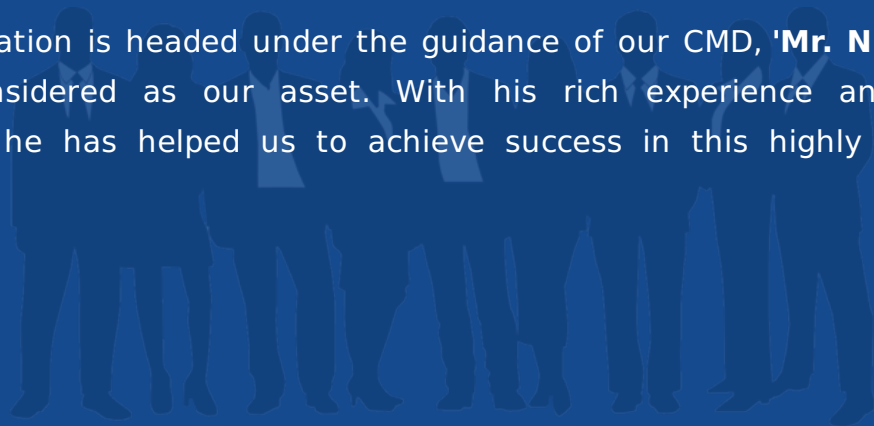

Profile

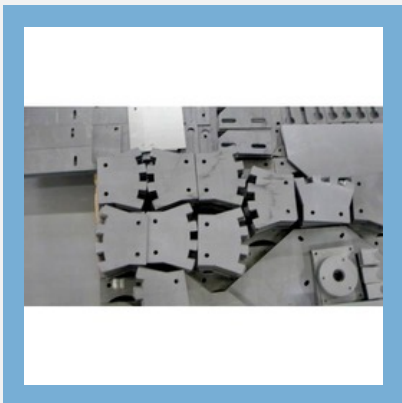

Established in the year **2012**, we, "**Lancer Fabtech Private Limited**" are one of the **ISO 9001:2008 certified** organizations engaged in rendering reliable **Laser Cutting, Welding, Bending and Allied Services** to the clients. These services are executed as per the exact details provided by the clients and in compliance with the international quality standards. We make sure to execute these services with the aid of latest technology and sophisticated machinery that ensure perfection in our services.

Our organization was started by promoters in 1999 and has created a respectable niche for itself. We, **Lancer Fabtech Private Limited**, have a team of diligent and proficient professionals, which helps us in attaining maximum level of customer satisfaction by executing the services as per the clients' specifications. The reliable services rendered by us reflect perfection and excellence as well as are known for their timely execution. Moreover, our team of quality controllers keeps a check on the execution of the services on certain pre-defined standards, to ensure their flawless nature.

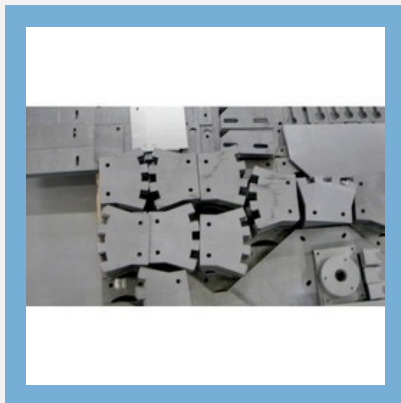

Our organization is headed under the guidance of our CMD, '**Mr. Nitin Patel**', who is considered as our asset. With his rich experience and immense knowledge, he has helped us to achieve success in this highly competitive market.
